OPERATION AND MAINTENANCE OF DHRUV HELICOPTERS

Recently, PHL signed an agreement with HAL for operation and maintenance of four Dhruv helicopters owned by Border Security Force (BSF). This contract is of national importance as this will initiate operations of these four helicopters for exclusive use of BSF at their designated places spread across the country. It will be first time when PHL will be responsible for operation and maintenance of indigenously built Dhruv helicopters. Earlier PHL has also signed contract for operation and maintenance of two Dhruv helicopters owned by ONGC which has started operations from Oct. 2009.

This synergy between HAL, the manufacturer of Dhruv and PHL, the leading helicopter Operation and Maintenance Company will help Dhruv helicopters to become a successful alternative to foreign manufactured helicopters in civil market in medium segment.

ध्रुव हेलीकॉप्टर हेतु कॉन्ट्रैक्ट पर हस्ताक्षर करने के दौरान श्री अमिताभ भट्ट, उप महाप्रबंधक (विपणन), एच ए एल के साथ अध्यक्ष एवं प्रबंध निदेशक श्री आर. के. त्यागी तथा अन्य वरिष्ठ अधिकारी

DIVIDEND CEREMONY

When PHL was formed in 1985 and commenced offshore operations in Oct' 86, helicopter operations by Indian Companies were virtually non-existent and expertise in this field was very limited. Within a year of its commencement of operations, the Company replaced all the foreign helicopter operators hired by ONGC, thereby saving outflow of valuable foreign exchange and served the Nation.

Growth in Oil sector play a very important role for the business growth of any Commercial Helicopter Operator worldwide including PHL. With the generous support of ONGC, PHL has been the dominant player in the Offshore sector and would continue to maintain this position by securing more contracts with the expansion of fleet, infrastructure, expertise etc. PHL would be keen to takeover the entire tasks of ONGC with these measures in near future on competitive basis.

PHL employees achieve immense satisfaction in meeting ONGC tasks in a professional manner, as they have developed an emotional bonding for ONGC and so is the case from ONGC side. Both ONGC and PHL employees

have developed good rapport and with joint efforts even most difficult tasks are completed successfully.

Shri R.S. Shrama, CMD, ONGC receiving Dividend cheque from Shri R.K. Tyagi, CMD Pawan Hans.

To assure ONGC personnel working at offshore about the safe operations of the PHL helicopters, a team comprising of senior representatives of Operations/Engineering/Quality Control would visit various offshore installations at Bombay High to interact with them for confidence building measures towards Safe Flying Environment.

Pawan Hans has an Equity Capital of Rs. 113.76 crores. :- GOI – Rs. 89.26 crores (78.5%) ; ONGC – Rs. 24.50

crores (21.5%). We have pleasure in handing over dividend cheques aggregating Rs. 2.45 crores towards dividend payment for the year 2008-09. We are pleased to mention that we have been regularly paying dividend to the Govt. of India and ONGC since last 17 years. Against the ONGC's equity share of Rs. 24.50 crores, PHL has till date paid Rs. 45 crores to ONGC as dividend. This has been possible due to unstinted support from ONGC which has been utilizing PHL services uninterruptedly since inception of Pawan Hans.

Contd. from page 1...

Pawan Hans Helicopters Ltd., a Govt. of India Enterprise, under the Ministry of Civil Aviation has paid a dividend of Rs. 11.37 Crores for the Financial Year 2008-09 @ 10% of its paid up equity to its shareholders i.e. President of India/Ministry of Civil Aviation & ONGC. The paid up Capital of the Company is Rs.113.76 Crores with Govt. of India holding 78.5% and balance 21.5% being held by ONGC. The Company has been consistently paying dividend since 1992-93 and till date has paid Rs. 205.88 Crores.

At a simple function held on 20th January, 2010, Shri R.K. Tyagi, CMD, PHL presented the dividend cheque of Rs. 8.92 Crores (Govt. of India share) to Sh. Praful Patel, Hon'ble Union Minister of State for Civil Aviation. Shri M.N. Nambiar, Secretary, Civil Aviation and Shri Rohit Nandan, Joint Secretary, Civil Aviation were also present in the function. CMD, PHL informed that PHL's

Shri Praful Patel Hon'ble Minister of Civil Aviation receiving dividend cheque from Shri R.K. Tyagi, CMD, Pawan Hans.

operating profit has increased from Rs.6.21 Crores (2007-08) to Rs.20.30 Crores (2008-09) and the company has been giving consistent performance. In the current year the operating profit of the company till Dec., 2009 is Rs. 28.00 Crores.

The Company has been able to secure good long term business with the institutional clients mainly in the Oil industry and Govt. sector which has resulted in improved utilization of

helicopter fleet. The Company was able to achieve improved financial performance as compared to previous year on account of long term contracts, better charter rate structure with high revenue yield and increased utilization of helicopters through improved serviceability of fleet.

While accepting the cheque, the Hon'ble Union Minister of State for Civil Aviation expressed happiness. Further, the Hon'ble Minister also said that he is proud of Pawan Hans and its employees for making all out efforts for this achievement.

PAWAN HANS TRAINING INSTITUTE

India's aviation sector has been witnessing tremendous growth for the past few years. The helicopter sector has grown at the rate of 10-20 % per annum. Between 2007 till date 26 new helicopters have entered Indian skies. There are more than 250 civil registered helicopters in India and it is expected that more than 300 new helicopters will be added by year 2012. The helicopter industry quality manpower and there are few training schools providing industry specific ab-initio and refresher training.

To meet this challenge, Pawan Hans has recently set up a state of the art basic aircraft maintenance training institute at its western region Mumbai. The institute provides DGCA approved basic aircraft maintenance engineering licence preparatory course for the purpose of acquiring AME Licence as per aircraft rule 61 and DGCA Civil Aviation Requirements. The course covers training in Mechanical (Helicopter airframe, jet engine) stream. Pawan Hans intends to introduce Avionics (electrical, instrument and radio) stream

also in the near future. On the job training to the students is provided within PHL maintenance infrastructure which is of international standards and approved maintenance center of Eurocopter, the leading manufacturer of helicopters. Helicopter type training courses and refresher courses to PHL personnel are also provided within this institute.

The purpose of the institute is to keep the skills of its own personnel update and provide qualified and technical manpower to the Aviation industry. Pawan Hans is expanding its fleet and actively pursuing diversification in MRO business in coming years. The institute will therefore serve the technical manpower requirements of PHL as well as overall demand for trained and skilled manpower in aviation industry.

PHL is the only helicopter operations and maintenance organization in the country which has set up such institute & students in the institute will be provided exposure to the available maintenance infrastructure under the guidance of PHL faculty.

PAWAN HANS LAUNCHED ONLINE TICKET BOOKING

PHHL launched a web based ticket booking & reservation system for Mata Vaishno Devi and other commercial services. The site was inaugurated by Shri. M. Madhavan Nambiar, Secretary, Ministry of Civil Aviation on 10/11/2009. Customer can book tickets through Pawan Hans website 'www.pawanhans.co.in' through Book Tickets link. Customer will be benefitted through the system as it is convenient, fast & safe. No worries about your ticket being lost or stolen. Ticket can be booked from anywhere through internet. Few ways to Transform Stress into Strength

Simplify your life! Start eliminating the trivial things & also dont major in minor things.

- Take deep, slow breaths frequently, especially while on the phone, in the car or waiting for something or someone. Use any opportunity to relax & revitalized yourself.
- Smile & laugh more.
- Exercise regularly - stretching your body releases tension.
- Become more aware of your demands you place on yourself, your environment, and on others to be tremendous sources of stress.
- Welcome changes as an opportunity and challenge to learn & grow.
- Take time to be with nature, people, music & Children. Even in the city, noticing the seasonal changes of the sky or watching people's faces can be a good harmoniser.
- Plan to do something each day that brings you joy, something that you love to do, something just for you.
- If your schedule is busy. prioritise your activities & do the most important ones first.
- Set a realistic schedule allowing some transition time between activities. Eliminate unnecessary commitments.
- In this journey of life remember to stop & smell the flower.
